National Occupational Classification

1. Skill Type 0 (zero) – management jobs.
   examples: restaurant managers, mine managers, shore captains (fishing)

2. Skill Level A — professional jobs. People usually need a degree from a university for these jobs.
   examples: doctors, dentists, architects

3. Skill Level B — technical jobs and skilled trades. People usually need a college diploma or to train as an apprentice to do these jobs.
   examples: chefs, electricians, plumbers

4. Skill Level C — intermediate jobs. These jobs usually need high school and/or job-specific training.
   examples: long-haul truck drivers, butchers, food and beverage servers

5. Skill Level D — labour jobs. On-the-job training is usually given.
   examples: cleaning staff, oil field workers, fruit pickers

Regulated and Non-Regulated Professions in Canada

In Canada, about 20 percent of jobs are in occupations regulated by the provincial or territorial governments. Through legislation and regulations, the provinces and territories give to professions the authority to self-regulate in order to protect public health and safety, and to ensure that professionals meet the required standards of practice and competence.

If you want to work in a regulated occupation and use a regulated title, you must have a license or a certificate or be registered with the regulatory body for your occupation in the province or territory where you plan to work.

Some fields where regulated occupations are commonly found include:

* health care
* financial services
* law and legal services
* engineering

http://www.credentials.gc.ca/individuals/credential.asp
Comparative Education Service (CES) at the University of Toronto
CES assessment letters can help Canadian employers, academic institutions, immigration officials, settlement agencies and professional licensing bodies understand the equivalency of your academic credentials.

International Credentials Assessment Service (ICAS)
Evaluates credentials from secondary school, post-secondary school and technical qualifications.

World Education Services (WES)
You can use WES evaluation reports for 5 purposes: employment, education, immigration, post-secondary education, licensing and apprenticeship training.
